Here are some facts regarding social media marketing used by businesses

- Nowadays, around **85 % of all brands** use dedicated social media platforms as part of their strategic marketing planning.
- Over **55 % of businesses** that utilized social media marketing for more than three years have seen an increase in sales numbers.
- Around **60 % of marketers** are using social media marketing to grow and maintain their businesses.

Therefore, it does not matter whether you handle a giant enterprise or a small local grocery store; you need to have the best digital marketing agency in India to increase brand awareness, expand the reach, boost sales and promote the development of your business.
